

CloudBridge[®] Axon-to-CDGC

An Informatica Cloud Migration Utility Tool

Incept Data Solutions presents a **cloud migration utility** designed to facilitate the conversion of Informatica AXON metadata to Cloud Data Governance (CDGC). This efficient tool streamlines the migration process, enabling a smooth transition while preserving all crucial information within CDGC. Improve the quality of and speed up your migration efforts by involving experts, equipped with our reliable migration solution.

Facets covered: Glossary | Dataset | System | Process | Policy

Efficient Cloud Deployment

Our migration utility automates the transfer of Informatica AXON metadata into CDGC import files, eliminating the need for manual data entry. This time-saving feature enhances productivity and minimizes the risk of errors, ensuring a swift and accurate migration process.

Custom Attributes Migration

Our utility effortlessly migrates custom fields associated with asset types in both AXON and CDGC, provided they have identical names. This ensures the seamless transfer of custom field values, avoiding redundant discussions and supporting efficient bulk migration.

Enhanced Data Integrity

Incept's migration utility accurately translates all currently supported CDGC facets from Informatica AXON to CDGC import files, preserving the integrity of your data. By seamlessly transferring definitions, attributes, relationships, and other essential information, it guarantees a comprehensive and reliable representation of your data within CDGC.

Speed of Development

Our utility offers a remarkable reduction in migration time, allowing you to complete the process within weeks rather than months. By leveraging our streamlined approach, data migration transforms from long, cumbersome projects into a fast and efficient CI/CD-ready process. Experience a significant time-saving advantage as you seamlessly transition to your new CDGC environment.
